

Chrome & Gmail Quick-Start Guide

1. Easy Web Browsing

Address Bar vs Search Bar: Type website names (e.g., www.bbc.co.uk) directly in the top long bar. Use the middle box to search for topics.

Make Text Bigger: Press **Ctrl** and **+** together on your keyboard to enlarge text (**Cmd** and **+** on Mac).

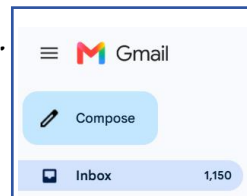

Save a Favorite Site (Bookmark): Click the **Star icon** at the top right of the browser address bar.

2. Gmail Basics

Open Email: Go to mail.google.com or tap the **Gmail App** icon on your phone.

Write a New Email: Click the **Compose** button.

View Pictures / Attachments: Click the photo inside the email to view it. Click the **Download Arrow** to save it safely.

3. Account Safety Rules

Strong Passphrase: Use **3 random words** together + number + special char (e.g., AppleTreeRiver99..)—easy to remember, hard to guess.

Account Recovery: Always add your mobile phone number so you can recover your password if you forget it.

4. Spotting Email Scams (Red Flags)

Rule 1: NEVER click links or download attachments in unexpected emails.

Rule 2: Banks and police will **never** ask for your password or transfer money via email.

How to Delete Safely: Select the email and click the **Trash Can icon** or click **Report Spam**.

🗨 WhatsApp Mobile & Computer Guide

1. Connecting Phone to Computer (WhatsApp Web)

Open your computer browser and go to: web.whatsapp.com.

Open WhatsApp on your mobile phone:

Android: Tap the 3 dots (top right) **Linked Devices**.

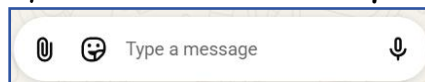

iPhone: Tap **Settings** (bottom right) **Linked Devices**.

Tap **Link a Device** and point your phone camera at the computer screen to scan the square QR code.

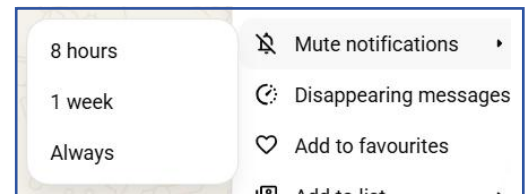

2. Easy Everyday Messaging

Send a Voice Note: Tap and hold the Microphone icon, speak your message, and release to send.

Make a Video Call: Tap the Camera icon at the top right of any chat.

Mute Noisy Groups: Open group chat to tap Group Name, then select **Mute Notifications** and choose **8 Hours**, **1 Week**, or **Always**.

3. Saving Storage & Memory

Stop Auto-Downloading Photos:

Go to WhatsApp **Settings** on mobile, then select **Storage and Data**.

Under **Media Auto-Download quality**, set all items to **No Media When roaming**.

4. Anti-Scam Protection

"Hi Mum / Hi Dad" Scam: If a relative texts from an unknown number claiming they lost their phone and need urgent money, **CALL THEIR ORIGINAL PHONE NUMBER FIRST TO VERIFY**.

Verification Codes: NEVER share a 6-digit text message code with anyone during whatsapp setup registration.

Block & Report: Tap the 3 dots of unknown caller message and scroll down to select **Block or Report Contact**.
